

ARTIST AT WORK . . . Ken Ford, who will speak to members and guests at the Avalon Village Baptist Church Men's Fellowship tomorrow, displays some of the art work he has completed recently. Ford will exhibit some of his paintings and discuss them at tomorrow's meeting.

Fellowship to Hear Illustrator, Artist

Artist Ken Ford, who spends his working days as an illustrator in the technical publications department of the electronics division of National Cash Register, will speak to members and guests of the Avalon Village Baptist Church Men's Fellowship Friday at a 6:30 p.m. dinner meeting of the group.

Ford will speak about a hobby, painting, which has seen him produce works ranging from a 300-foot long Hawaiian landscape for a Huntington Park skating rink to a series of works on the life of Christ. Fellowship chairman Fred Wert who announced Friday's program, said Ford would bring an exhibit of his religious and commercial paintings to the meeting and comment on them.

He is currently working on a series on the life of Christ in which he plans to depict highpoints in His life in a

series of 12 paintings. One painting took four years to complete, Ford reports. When completed, the series will be available for display, but will not be sold, he said.

Reservations for Friday's dinner meeting may be made with Wert at TE 5-1642. A donation of \$1.25 is being asked to cover the costs of the chicken dinner.

Measles, Mumps Top City Ills

Four cases of mumps and three cases of measles were among 14 cases of reportable diseases listed in Torrance for the week ending June 8.

Also reported were two cases of scarlet fever and one case each of epilepsy, gonorrhea, hepatitis, syphilis and pulmonary tuberculosis.

Sloping lawns often go thirsty in spite of frequent watering. The reason, of course, is that the water runs off before it has a chance to sink in to any degree. Remedies for this situation include: a canvas soaker which can be put at the top of the slope and left to dispense water so slowly that it sinks in before it runs off; mist sprinklers are helpful for much the same reason. Lacking either of these, try watering in spurts—soaking, then holding off for an hour, then soaking again, and so on until the water works itself in.

Torrance Boy Wins USC Medal

Irvin L. McClendon, son of Maj. and Mrs. Irvin N. McClendon of 3222 W. 181st St., was awarded the Sons of the American Revolution award as the outstanding Air Science I cadet at the University of Southern California.

McClendon received this year's award during conclusion ceremonies for the USC Air Force Reserve Officers Training Corps.

To Address Kiwanians

Halcyon Ball, director of finance for the California World's Fair, will be guest speaker at Kiwanis Club of Torrance, Monday night at the Palms Restaurant, 6:30 o'clock.

Ball, 38, was born and educated in Long Beach. He is president-elect of the Lakewood Rotary Club; president of the Lakewood Plaza Citizens' Improvement Assn.; and past

secretary of the Long Beach Chapter, California Society of Certified Public Accountants.

Chrysanthemums are gross feeders and like a good helping of liquid fertilizer every three weeks or so right up to the time their buds begin to show color. We stop feeding at this time—usually in late summer—because an overdose of food at bloom time tends to diminish the brilliance of the bloom.
